

Exercises: 1.EDA

Dr. Alan Berg

11/01/2022

Question 1

- Which labour market themes are mentioned on the CEDEFOP and Burning Glass websites?
- How are the themes relevant within your context?

Question 2

Review the output from the notebook .nb.html file and write in your notes the following.

- List the packages used and describe their purpose
- List the new functions used and what they do
- Describe any short recipes in your own words
- Search the Internet for at least two links for similar examples

Question 3

- Review the EDA output from the notebook.
- Write in words the main opportunities and issues are related to which fields starting with the JobBody and postcode fields. Feel free to copy images into your report.
- Note the top six fields that are most useful for your field of study and why
- Conclude with a short summary of what would be needed to improve the data

Bonus

- Verify that Rstudio is correctly installed on your computer
- Clone the Github repo:
- Run the code EDA.Demo.Rmd
